TRANSFORMATIVE FENG SHUI CONSULTATIONS – QUESTIONS AND ANSWERS

What is the difference between feng shui and space clearing?

Transformative Feng Shui improves and balances the flow of energy in your home or workplace by analyzing what is needed in a particular location. It pays particular attention to the colors, tones, shapes, materials, arrangement of furniture and quality of lighting, based on the cycle of the five elements. An important part of a feng shui analysis is to sort out negative influences on health such as electromagnetic and microwave pollution, geopathic stress, energy leaks, etc. A better flow of energy will affect every aspect of your life, health, relationships and work.

Inspirational Space Clearing® creates a new harmonious and balanced environment by increasing the vitality, positive energy and light in a place and by releasing all the old emotions and memories contained within the walls. It identifies and removes any thought patterns, stagnant energy, repetitive patterns, and emotional layers that have built up over time. Inspirational Space Clearing® allows you to fully release the past and clears any stress related to past events. It brings in new light and inspiration, and encourages the success of projects that are dear to your heart.

Do I need a feng shui consultation or a space clearing if I have problems with sleep or health?

Many issues related to health and sleep are caused by environmental stress and problems with earth energy such as ley lines, geopathic stress, underground water, electromagnetic and microwave pollution. A Feng Shui consultation is best for identifying and solving these types of problem.

Sometimes disruptive sleep patterns and certain health problems are caused by a ghost, a problem with your ancestors, a spell or some kind of stuck energy. A space clearing will solve these issues.

What does a feng shui consultation consist of?

Each consultation is unique and personalized, adapted to the individual circumstances of each case. For example, a feng shui consultation done on the renovation of a building is very different from a consultation done before construction. A feng shui consultation takes many different aspects into account. These include the specific environment, the type of land, the orientation of the building, the particular types of building materials used, and more. Even two apartments in the same building would have very different feng shui, according to their individual orientation and the people living there. A place can be ideal for one person but not for another. Thus, the remedies applied will always vary. The aim is to create a harmony and well-being specifically aligned with the person who lives there.

In a standard transformative feng shui consultation, the plan analysis of the different types of energy in the different areas of the house is explained (health, love, family, relationships, finances and wealth, career, travel, etc.). Lucy will also give you a study of the best colors and elements for the different rooms, as well as the people living or working in the space. Then Lucy will go through each room of the house/apartment/office and give you tips on furniture placement, lighting, colors, elements, materials, visual art and objects, etc. She will also measure the EMF pollution with professional field meters and check for geopathic stress and anything that could adversely affect your health.

What are the different kinds of feng shui consultations?

- Standard Consultation (plan analysis, numerological analysis, onsite visit, reading of professional EMF field meters)
- Telephone or Skype Consultation (plan analysis, numerological analysis, phone/skype session)

What should I send Lucy before my feng shui consultation?

You must send all the following items by mail (or email) to arrive at least two weeks prior to the date of the scheduled appointment:

1. Architectural plans of your apartment or house with the North clearly indicated (2 copies, **not originals**). For renovations, please send both old and new plans with the proposed works specified.
2. Full names of all persons living in the place, with the dates, places and times of their birth.

Do my plans have to be made by an architect?

It is better to have architectural plans. However, they may also be hand drawn, as long as they are to scale and show the direction of North. (Sometimes it is necessary to add the North on architectural plans). The more accurate the plans are, the more correct the Bagua and plan analysis will be.

Should I be present during the feng shui consultation?

Yes.

TRANSFORMATIVE FENG SHUI CONSULTATIONS – QUESTIONS AND ANSWERS

Where does Lucy travel to?

Lucy travels regularly throughout Switzerland and in neighboring France. Be aware that travel costs may be charged according to the distance from Geneva (50 CHF per hour of travel). Consultations abroad may be possible by arrangement. Lucy regularly travels to the USA and the UK for consultations. In these cases travel costs are shared amongst all the clients in the same area.

Is it possible to do a remote Feng Shui consultation?

Yes it is. *Of course it is preferable to do the consultation onsite because it is not possible to determine problems such as geopathic stress, ley lines, water currents and electromagnetic and microwave pollution from a distance.*

However, it is still possible to determine many useful things from looking at a proper plan of a place. These include the different areas of the house (health, love, family relationships, career, finances, success, etc.), the ideal colors for each room, energy leaks and how to fix them, and advice on shapes, materials, orientation and placement of beds and spatial arrangement of furniture.

Lucy can do an analysis of the plans for your living space and a numerological study of all people living in the place from a distance. This is then followed by a telephone or skype session to explain the report. It is essential that you send your plans in good time so that Lucy is able to do the analysis before you arrange your phone appointment (two weeks before unless otherwise arranged).

Will I receive a written report?

You will receive plans clearly showing the Bagua grid representing the areas of your life, with remedies, colors, what to do about missing areas, etc. You will also receive the numerological analysis for all people living or working in the place, along with their personal colors and the directions that work best for them. The detailed feng shui analysis is given verbally either onsite or by telephone or skype, and you are welcome to record it.

Lucy can do a written report at a cost of 150 CHF/USD per hour.

How do I pay for consultations?

The basic price for a consultation is agreed in advance, but there may be some variation according to the length of time spent onsite or on a phone or skype session (which are paid at an hourly rate).

An onsite consultation is paid in cash on the day. A remote telephone or skype consultation must be paid in advance by bank transfer.

You pay the cost of the transfer, and payment must be made only in CHF.

An invoice will be issued after the consultation.
