## INSPIRATIONAL SPACE CLEARING®

Every culture in the world has its own unique ceremony, rite or ritual to bless a home. These ceremonies are often officiated by a priest, a priestess or a shaman. They aim to banish all negative influences, and to guarantee the well-being, protection and good fortune of the occupants. Interestingly, these ceremonies from diverse cultures always use similar techniques based on the five elements (earth, air, fire, water and ether/spirit). They are used to bless a new home, both before and after construction; after a big change; to mark the cycles of life such as birth or death; and to banish all traces of tragic events and negative influences from a place, as well as simply to cleanse and bless everyday activities. The modern term given to this collection of blessings and rituals is “space clearing.”

Inspirational Space Clearing® creates a new harmonious and balanced environment by increasing the vitality, positive energy and light in a place and by releasing all the old emotions and memories contained within the walls. It identifies and removes any thought patterns, stagnant energy, repetitive patterns, and emotional layers that have built up over time.

The energy of a place is partly created by the traumas, events, moods and so on which have taken place there. Every time a strong emotion is felt by someone in a particular place, part of its energy remains as a residue on the walls. Over time these residues build up and become very thick.

The same types of situation will generate the same types of emotion and thus create an energy cycle or an imprint which anchors itself to the place in question. Once the new inhabitants arrive they become influenced by these emotional imprints and this can give a predisposition to reproduce the same patterns of behavior.

Before buying or renting a new home or work place, it is advisable to make enquiries about the lives of the previous inhabitants. If they were happy, there is a strong possibility that you will be happy too. However, if they had problems with relationships, money, health, and so on, it is quite likely that sooner or later you will experience similar difficulties unless you take steps to change the energy. Likewise, if a company has gone bankrupt, there is the risk that your company could do the same. If, on the other hand, the previous company was successful, then you will attract the same kind of success.

If you feel attacked or emotionally blocked, or you feel that there is a heaviness in the atmosphere of your home or office, or if you have the impression everything you try to do gets blocked, and your projects don't advance as you would like them to, then your space definitely needs Inspirational Space Clearing®. An Inspirational Space Clearing® releases old negative energy and emotional patterns of all kinds, helps departed souls to cross over into the light and removes all malicious and malevolent entities and influences and their residues from a place.

### Note

Inspirational Space Clearing® is not the solution to all your problems. It cannot guarantee that all your dreams and future projects are going to come to fruition by themselves, but it does create a healthier environment, giving you the energy and inspiration you need. Inspirational Space Clearing® brings in more light, and the more inspiration in a place, the more opportunities will open up. This leads to good decision making, surrounding yourself with people who support you, understanding the messages of your intuition and tapping into the necessary knowledge to succeed in life.
